

Some kids are just used to being scared.

KIDS GETTING SHOT

GANG FIGHTS

MUGGING

ROBBINGS

GETTING BEAT UP

I SEE IT ALL

Our children seem to grow numb to violence and crime in our communities. But violence shouldn't be the norm in a child's life. Seeing or being a part of violence can affect any child and can cause trauma. Trauma that is real. Trauma that may affect them in school and all through life. But you can help.

See their world through their eyes, and look for signs of trauma—fighting, or hopelessness, fear, or anger. Just Look Through Their Eyes— because you CAN do something.

There is help, and there is hope. Learn more at
