## ICTC Monthly

Welcome to the first addition of the ICTC Monthly! We are excited to share this new platform for communicating information to our Coalition members. Our mission to promote the prevention and treatment of childhood trauma remains at the forefront of our work, and the purpose of this newsletter is to keep our Coalition members connected.

On September 1st, we will be hosting the ICTC Quarterly Meeting at the Ann & Robert H. Lurie Children's Hospital of Chicago. We're looking forward to seeing you there, and sharing some of the new things we're working on at our new Coalition headquarters. In the meantime, if you have important news to share, job openings, funding opportunities, or relevant information related to childhood trauma, we want to hear from you! Please reach out to us at [ictc@luriechildrens.org](mailto:ictc@luriechildrens.org) to be included in next month's newsletter.

## In the Spotlight

One of the most successful initiatives of the ICTC has been the Look Through Their Eyes public awareness campaign. Most recently, the website went through a significant update, allowing users to download the Stories for Children series for easier access, and in weeks to come, a version in Spanish will be available. Please stop by and browse our new website!

As many of you know, the ICTC transferred its base of operations from Voices for Illinois Children to Lurie Children's Hospital's Center for Childhood Resilience on July 1st. The Center's aim will be to create the structures and supports for continuing the mission and work of ICTC. Click [HERE](#) to read the full memorandum.

## Highlights

FUTURES Without Violence provides groundbreaking programs, policies, and campaigns that empower individuals and organizations working to end violence against women and children around the world. In early September, FUTURES is partnering with the U.S. Department of Justice and the Ad Council to launch **Changing Minds**, a national campaign that will raise awareness, teach skills, and inspire public action to address children's exposure to violence and childhood trauma.
